

## Video Competition

### Active Citizenship

The viducate 2010 video competition runs parallel to the “2nd European Forum for Video Education” which takes place on the 1st and 2nd October 2010 in central Berlin.

We are looking for creative contributions of up to 3 minutes which are self explanatory without the use of verbal language. The films should deal with the subject of active citizenship, they should directly or indirectly show how to empower citizens to exercise and defend their democratic rights and responsibilities in society.

The contributions can belong to any genres, for example documentary, experimental or a video letter.

The competition is for educators and media activists. We welcome contributions from all educational sectors (pre-school, school, vocational training, adult education, university).

A jury of five European experts from the areas of education and community media will select the winner.

Additionally entries will be presented on the viducate gallery and on local television across Europe.

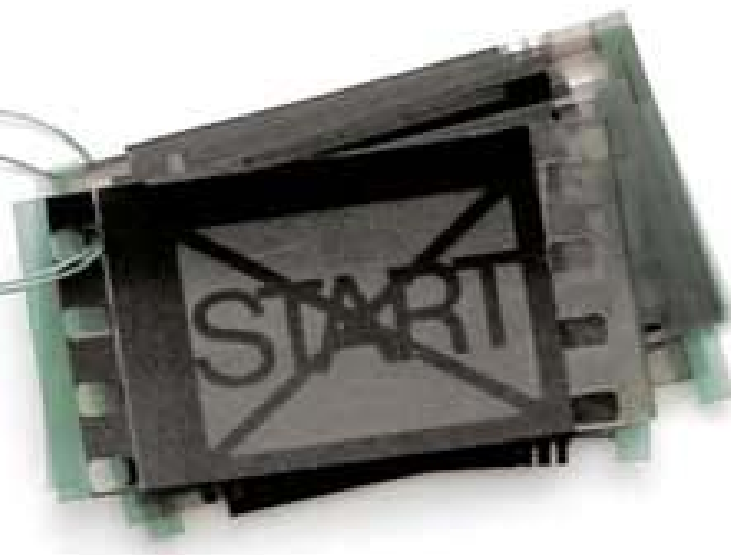

**Deadline for your contribution is midnight 31<sup>st</sup> August 2010.**

Submit your own interesting video related to the theme of “active citizenship” and win a free trip to our Berlin Forum!

Education and Culture DG

Lifelong Learning Programme

## Here is what you need to do

- Discuss your idea with your learning group / class / team / colleagues
- Produce your video together, maximum length 3 minutes
- Upload your video to <http://viducate.ning.com> (registration is free)
- Send us an email with your name, institution, address, email address and video title
- Wait to see if you have won!

## Conditions

1. The prize winner will receive a free economy flight ticket and free accommodation for three nights for one person (the person must be at least 20 years old).
2. When uploading your video you declare that you give the viducate project the rights to publish your video within the event /online/ local television and that the video does not contain copyright protected visuals or music.
3. Please include English subtitles for any written or spoken words.

## Selection criteria

1. We are looking more for creative and innovative ideas rather than high-professional production quality
2. Preference will be given to videos which don't rely on spoken words.
